

CF ARCHITECTURAL WALL PANEL

The Metl-Span III CF Architectural wall panel is ideal for high profile architectural applications. The panels are designed to be installed vertically with concealed clips and fasteners in the side joint. CF Architectural wall panels provide a beautiful flush appearance. New available design features include custom widths and preformed and radius corners.

EXTERIOR COLORS

Eight standard colors in full strength fluoropolymer PVF²:

- Polar White
- Regal Gray
- Aegean Blue
- Sandstone
- Desert Beige
- Sculpture Bronze
- Forest Green
- Brick Red

A new expanded palette of premium colors is also available.

Interior color and coating is USDA compliant Igloo White polyester.

NOTE: Prices may vary by color, gauge and quantity of metal.
